TECHNOLOGY PLATFORMS

INVITATION

OPEN DAY OF TECHNOLOGY PLATFORMS

You are cordially invited to attend our Day of Technology Platforms at the Universität Hamburg on January 31, 2024. This event is designed to disseminate information to users, project managers, scientists, and all interested parties regarding the cutting-edge technology available and its potential applications.

Commencing at 9 a.m., the morning session will feature an introduction to the technology platforms, including the Clean Room Laboratory at CHyN, at the Universität Hamburg. We will showcase research highlights and provide insights on accessing these platforms. Subsequently, from 3 p.m. to 5 p.m., the Mass Spectrometry, Electron Microscopy, Light Microscopy, and Electron Cryo-Microscopy platforms will conduct guided tours. Kindly consider registering through the website.

The platforms afford researchers at all career stages access to state-of-the-art methodologies. Within these facilities, you will encounter meticulously maintained, advanced equipment, receive training on usage, and benefit from comprehensive support in the planning, execution, and analysis of experiments.

Wednesday, January 31st 2024, 9 a.m.
Center for Structural Systems Biology
Building 15
Notkestraße 85
22607 Hamburg

Guided tours start at 3 p.m.
at the platform locations
